Features explained

Soundflow: A revolutionary system to give you the best possible hearing, wherever you are.

SoundRecover: High frequencies can be remapped to audible levels.

NoiseBlock Processing: Designed to maximise your comfort in noisy situations without affecting speech.

WhistleBlock Technology: The most effective anti-whistle system available today.

WindBlock Manager: A processor which will reduce the annoyance of wind turbulence.

EchoBlock: A system designed to help clarity wherever there are hard surfaces or high ceilings (eg Churches, rooms with laminate flooring).

myPilot: Remote control, alarm and program indicator, all with a full colour display.

iCom: Connect to bluetooth devices - mobile telephones, TV, SatNav.

Click'nTalk: Direct connection from selected mobile phones to any CORE wireless products without the need for iCom.

DuoPhone: Automatic bilateral hearing with reduced background noise with landline and mobile phones.

AudioGram Direct: A hearing test run through the instrument itself, to ensure your fitting is as personal as possible.

ZoomControl with Direct Touch: ZoomControl can now be set with the push of a button or using myPilot.

Exélia Art family with myPilot, iCom & Click'nTalk
