

HEARING WITH EASE

The game-changing technology of CROS X devices understands your personal hearing environment in greater detail than ever to deliver sound precisely tailored to you.

Thanks to the wireless transmission from the unaidable ear to the ear with better hearing, you can follow conversations effortlessly, even when someone is speaking to you on your unaidable side.

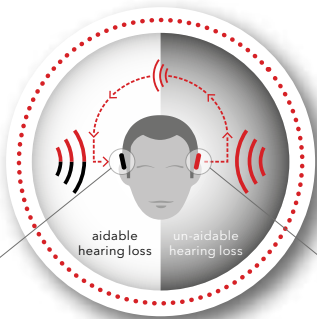

CROS

Hearing aid receives sound via CROS on the unaidable side.

CROS wirelessly transmits sounds.

BiCROS

Hearing aid receives sound via CROS on the unaidable side and amplifies as needed based on individual settings. A motion sensor in BiCROS Pure X devices ensures optimal hearing even while moving.

CROS wirelessly transmits sounds.
